Hot Candys

Makeup guide

Divine Diva

Once an even base coat of foundation has been applied to the face begin this step by step Divine Diva look by following the simple 5 step guide below...

- 1.** To create freshly blushed cheeks simply sweep with Matte and Shimmer cheek colour across the cheek bones with a large soft blusher brush. Over this apply brilliance powder on cheeks for a fabulous sparkle
- 2.** Next step, take the cream eye colour in arctic ivy to the crease of the eyelid blending up to the brow bone as well as under the lower lashes, smudge to fade out slightly around the edges
- 3.** Using the shimmer cubes palette apply honeycomb shade over the eyelid evenly. Then blend a smooth sweep of choc chip colour over the top of this
- 4.** Now for the diva definition. Apply liquid eyeliner on the top of the eyelid close to the lash line and sweep confidently out with a small flick. This will create a lengthening look to the shape of the eye. For the final touch apply super volume mascara to the top and bottom lashes....
- 5.** Gloss the lips for a luscious look using one of the tinted lip gloss miniatures from the set...

Now feel divine !!!
